-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 02 May 2006.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION***Response to Amendment***

The amendment filed on 5/2/2006 has been entered.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 14 and 15 are rejected under 35 U.S.C. 102(e) as being anticipated by Kim (2003/0067266).

Regarding claim 14, Kim discloses an OLED comprising: a substrate (fig 5, not shown); a first semitransparent film (130 and top part of 128); a second semitransparent film (128); and a reflective film (126), wherein the first and second semitransparent film and reflective film are laminated on the substrate in this order (fig 5).

As claimed

1 st semitransparent film
2 nd semitransparent film
Reflective film

Prior art (Kim)

Electrode (130) Hole injecting layer (128, part, semitransparent)
Hole transp. Layer (128, part) Light emitting layer (128, part) Electron transp. Layer (128, part, semitransparent)
Semitrans. Layer (126a) Electrode (126b) Reflective layer (126c)

Art Unit: 2879

Regarding claim 15, Kim discloses the first semitransparent film and the reflective film comprises an electrode respectively and the second semitransparent film comprises organic light emitting layer (para 54).

Allowable Subject Matter

Claims 1-13 are allowed. The following is an examiner's statement of reasons for allowance: Regarding independent claim 1, the prior art of record does not teach or suggest the invention of an OLED having two reflecting portions sandwiching light emitting layer wherein the optical film thickness of the light emitting layer, intensity reflectance R1 at the front reflecting portion and intensity reflectance R2 at the rear reflecting portion are configured so that intensity reflectance of external light viewed from the viewer is set to be 10% or less by an optical interference effect, along with other claimed limitations. Claims 2-13 are allowed due to claim dependency.

Response to Arguments

Applicant's arguments with respect to claims 14 and 15 have been considered but are moot in view of the new ground(s) of rejection.
